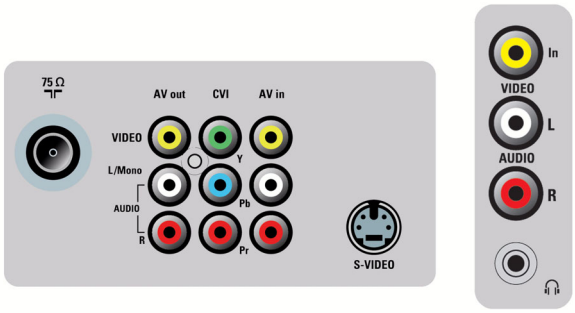
- Set dimensions (W x H x D): 512 x 593 x 744 mm
- Set weight: 34.5 kg
- Weight incl. Packaging: 39.5 kg
- Box dimensions (W x H x D): 617 x 683 x 840 mm
- Color cabinet: Silver Frost



Product highlights

Black Matrix picture tube
A Black Matrix picture tube improves the contrast of images even when viewing in daylight conditions.

Incredible Surround™
Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

4x3 Expand
4x3 Expand enables widescreen movies to be viewed on a 4:3 aspect ratio TV screen by removing the black bars at the top and bottom of the image. You are able to watch full-screen movies without compromizing on picture quality and resolution.

QuadraSurf remote control
It allows you to program your favorite list of programs.

Auto Picture
Auto Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program.

Auto Sound
Auto Sound provides pre-defined sound settings for ultra bass, bass, treble and balance for the optimum entertainment experience.

Component Video Input (YPbPr)
Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.
